FEATURES AND BENEFITS

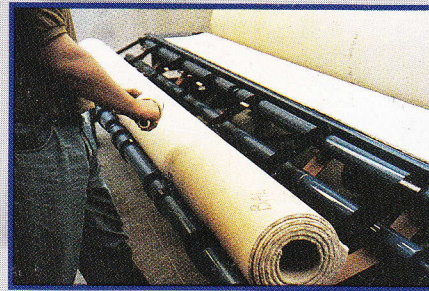

The machine arrives fully assembled with the exception of the support stands and caster wheels.

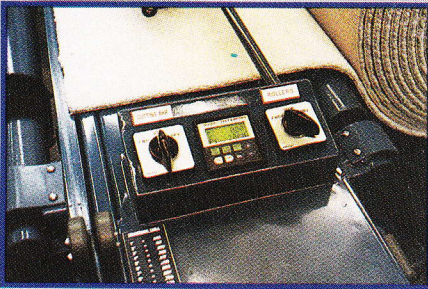

The operator ensures a clean and precise cut by activating the automatic cutting bar.

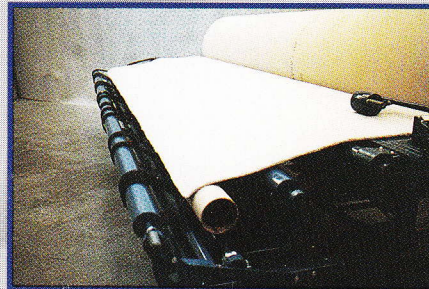

The advanced cradle system is equipped to handle both carpet and vinyl flooring.

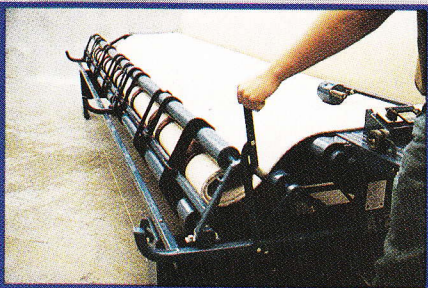

With operating cables around the entire machine, wrapping both the cut and balance rolls is done very easily.

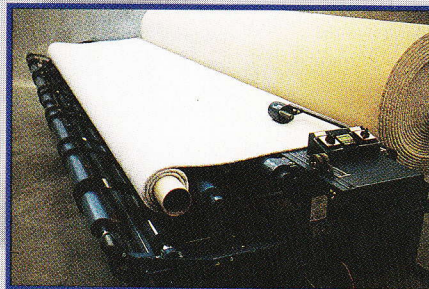

The electronic counter provides accurate inventory counts and gives you the ability to detect shortages.

Reverse Rolling the carpet "pile" side out is a fast and tidy job.

The spring-loaded receiving cradle allows for an easy and tight roll up of all flooring.

The use of a core provides a secure roll up while the operator watches and inspects the flooring.

"It is the best investment we have made in years! I highly suggest that any retailer concerned with improving his warehouse efficiency and his checking account balance, look into the MK-JR!" Bayonne, New Jersey

"In my relative small operation, the MK-JR allows me to spend more time with my customers and gives me a good attitude! I shopped every machine in Atlanta and highly recommend E-Z Cut and their folks!"

Cincinnati, Ohio

"Since you can do it all yourself, every dealer should acquire one before hiring extra help. For only a few dollars a day, my MK-JR is a true asset to my business!"

Kenora, Ontario
